Green Remodeling Book Project Information

Thank you for your interest in submitting projects to be included my new book. Below I have outlined the publisher's requirements as well as information I am looking for as I consider projects to feature.

Minimum publication requirements:

- Professional quality photographs of completed project
 - Digital photos captured with 6 megapixel minimum resolution
 - Scanned photos at 350 dpi minimum
- Full rights to publish photographs

What I will provide for selected projects:

- Credit for professionals involved
 - Contractors
 - Designers
 - Consultants
- Contact information
- Web links through www.sevilleconsulting.com

Outline of information I need to consider projects for inclusion (please include as much as possible):

- Before and after photographs
- Process photographs demonstrating unique features and techniques
- Outline of green aspects of project
 - Whole House Philosophy
 - Site impact
 - Resource Efficiency
 - Deconstruction/Demolition
 - Recycling/Reuse/Waste Reduction
 - Material Selection
 - Energy Efficiency
 - Renewable Energy
 - Water Conservation
 - Indoor Environmental Quality
- Testing results

- Certifications
- Awards
 - Please include your entry into any awards programs whether or not any were received
- Energy Savings
- Floor plans

Additionally, I would like to understand your initial intentions and goals for the project and how they may have changed during the design and construction process. I believe that we must set high goals to achieve and expect that most projects did not meet every goal that was set. I am looking for details that help define the complexity of the process and how particular challenges were dealt with, both successfully and unsuccessfully.

Please describe:

- Project scope and initial goals
- Most successful features
- Least successful features
- Challenges overcome
- Products or techniques that were considered but not included and the reasons why (financial, timing, availability, etc.)

I appreciate your time in assembling this information on your project. Please send me your project details via email or regular mail, whichever is more convenient. Professional photography can follow later if necessary.

Feel free to contact me with any questions.

Thanks in advance for your participation.
